SUMMARY

I design interfaces that users don't have to think twice about. Entry-level UI/UX Designer with a developer's mindset and a portfolio that proves results — 12+ responsive screens, 35% better navigation, and seamless collaboration with developers and product teams. Tools like Figma, Adobe XD, and Webflow are my instruments, but user empathy is my foundation. I'm ready to bring my design thinking, problem-solving, and technical fluency to a team that values impact over aesthetics alone.

UI/UX Projects

Bavora – Travel Package Comparison | UI/UX Design

Project Description:

Designed a travel planning application that helps users compare packages with differently presented prices and inclusions. Created a consistent comparison experience covering price, duration, hotels, transport, meals, and activities.

Key Responsibilities

Designed user flows for package discovery, comparison, and trip planning
Created desktop and mobile UI layouts in Figma
Organized package details into consistent, easy-to-scan categories
Designed explore, package details, compare, and booking success screens
Used Auto Layout, reusable components, and responsive spacing
Simplified navigation and content hierarchy to support decision-making

Tools Used

Figma | Auto Layout | Wireframing | Prototyping

Key Features

Side-by-side comparison of package prices and inclusions
Package exploration and detailed itinerary views
Personalized trip planning flow
Booking confirmation and profile screens
Responsive desktop and mobile layouts

WEB DEVELOPMENT INTERN

DLK Software Solutions | 1 December 2025 - 9 January 2026 | Completed

- Assisted in developing and maintaining website modules by fixing bugs and improving functionality
- Built small-scale projects to strengthen coding fundamentals and problem-solving skills
- Worked with Python and basic web development tools to understand real-world workflows
- Practiced debugging, testing, and implementing simple features
- Gained understanding of how frontend development supports user experience design
